

Someone New

Verse 1

**We were lost in a Broken paradise
only connecting at the hips but not in our minds
You know it's true babe with all that we got up too
We were never one, it always felt like we were two**

**When we made love it could not compare
when we gave love it just wasn't there**

Verse 2

**Baby we were only fooling ourselves
Couldn't face the fact that we were missing something else
always in the room, drunk on our desires
It was fun but now it's time that we were moving on**

**cause When we made love it could not compare
But when we gave love it just wasn't there**

Chorus

**You know you left your fire fire still burning
I'm thirsting for more
You know i'd be a liar liar
To say I don't crave you no more**

**I miss your wild side yeah baby it's true
I hope I find that in somebody new**

POST

**You know you left your fire fire fire
I hope I find that in someone new**

**You know you left your fire fire fire
I hope you find that in someone too**

Verse 3

**been moving on in the hope I can replace you
Someone who connects in ways that we just couldn't do
But you're on my mind when we in the bedroom
When the lights go out, they got so much to live up to**

**cause When we made love it could not compare
But when we gave love it just wasn't there**
