

Just Jump (1A)

(1st full recorded version - May 26)

Verse 1: Been doing 9-5 for so long - I'd forgotten
 All my dreams in life, I was wrong - Money doesn't solve problems
Every day it is the same - I just seem to fake it
 Don't wanna keep on playing this game - cos I just cant take it

Pre Chorus1: So I'll break out of my cage - there's no need to be afraid
 I'll never say "I wish I had" - cos I won't be looking back
 Running out of my cave - gotta make my own mistakes
 I wanna live, I wanna live - in my own way

Chorus1: Just Jump - Break through
 Everything that's holding you back
 from where you're going
 Just Jump - (and) You'll see
 That everything will be alright if you

Post Chorus1: Just Jump, Just Jump, Just Jump,
 yeh everything will be alright
 Just Jump, Just Jump,
 yeh everything will be alright

Verse 2: They're telling me to hold on - that's just the way the system works
 But they don't understand, they're wrong - Does anybody know that it hurts
No, I'll never be the same - like everybody else
 Cos that'd be totally insane - I know I can find myself

Pre Chorus2: So I'll break out of my cage - there's no need to be afraid
 I'll never say "I wish I had" - cos I won't be looking back
 Running out of my cave - gotta make my own mistakes
 I wanna live, I wanna live - in my own way

Chorus2 = Chorus 1: Just Jump - etc

Post Chorus2: Just Jump, Just Jump, Just Jump,
 yeh everything will be alright
 Just Jump, Just Jump,
 yeh everything will be alright

Middle8: There's no need to be afraid
 I want to live in my own way !

Chorus3 = Chorus 1: Just Jump - Break through
 Everything that's holding you back
 from where you're going
